github.com/heyaryanmittal — Patiala, India

Summary

Computer Science Engineering student skilled in **Java, Data Structures, Algorithms, and Object-Oriented Programming**. Experienced in backend development, REST API design, and debugging scalable applications. Familiar with the **Software Development Lifecycle (SDLC)** including design, testing, and deployment. Passionate about solving algorithmic problems and building reliable software systems.

Projects

MediCore – Hospital Management System

[Live Link](#)

MongoDB, Express.js, React, Node.js, REST APIs

- Designed and implemented RESTful backend APIs for patient records, appointment scheduling, and administrative workflows.
- Optimized data retrieval and validation logic improving system reliability and response efficiency.
- Collaborated using Git workflows with structured commits, debugging backend issues and improving API stability.

BachatSaathi – Personal Finance System

[Live Link](#)

MongoDB, Express.js, React, Node.js, JWT Authentication

- Built secure backend services implementing JWT authentication and role-based access control.
- Designed modular API architecture improving maintainability and scalability.
- Implemented efficient database queries to manage financial transactions and budget tracking.

MartNexus – Inventory Management Platform

[Live Link](#)

React, Node.js, PostgreSQL, Supabase

- Developed an inventory workflow system simulating enterprise supply-chain operations.
- Implemented relational database queries and joins to manage product, order, and inventory lifecycle.
- Performed debugging, testing, and iterative feature enhancements improving application stability.

Technical Skills

Programming: Java, JavaScript, SQL

Core CS: Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Backend Engineering: Node.js, Express.js, REST APIs, Authentication

Databases: PostgreSQL, MySQL, MongoDB

Tools: Git, GitHub, Debugging, Code Reviews, Documentation

Cloud & DevOps: AWS Fundamentals, Docker (Basic)

Practices: Agile Development, SDLC, Testing, Troubleshooting

Soft Skills

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Communication
- Adaptability
- Time Management

Education

Chitkara University, Himachal Pradesh, India

Bachelor of Engineering in Computer Science

CGPA: 8.89

Aug 2023 – Present

Achievements & Certifications

- **Google Cloud Study Jam Certificate** – Cloud fundamentals and scalable systems.
- **Naukri Campus Young Turks (Round 1)** – National-level analytical aptitude recognition.
